

**A Dedication and Aspiration expressing
Three-cycles of the Buddha's Teachings**

**By the power of this strengthening activity,
May there be the cessation of the defilements for all beings.
May they have excellent relative happiness, good health, and long lives,
May all be imbued in an infinity of loving-kindness, compassion, joy and
equanimity.
May all quickly realize primordial awareness,
The luminous-empty ground, unborn and unceasing,
The unity of emptiness and compassion
As the most glorious gift for all.**
